Welcome to Fernandez Hospital's IUI Clinic

Explore the path to parenthood with our compassionate, state-of-the-art IUI treatments.

At Fernandez IUI Clinic, we offer a simple and affordable pathway to parenthood through Intrauterine Insemination (IUI). This procedure enhances your chances of pregnancy by placing specially prepared sperm directly into the womb at the optimal time.

Is IUI Right for You?

IUI is ideal for couples when:

- The female partner is unable to conceive naturally.
- Ovulation treatment is unsuccessful.
- The male partner has an insufficient sperm count.

Our IUI Procedure: A Gentle Journey

- Semen Collection: Sperm is collected and meticulously prepared in our state-of-the-art lab.
- Sperm Preparation: We select only the most active sperm for the procedure.
- Sperm Insertion: The sperm are gently placed into the womb, using a thin, soft tube designed for comfort.

A Quick and Comfortable Experience

The IUI procedure at the Fernandez IUI Clinic is quick, taking only a few minutes, and is usually pain-free. Patients can relax knowing they can return to their daily routine shortly after the procedure, with only a brief rest period.

Enhancing Your Chances

Post-IUI, we recommend intercourse to further increase the likelihood of conception. Typically, one well-timed session per cycle is sufficient, with up to six cycles recommended to maximise success.
